

White Label Advanced Engineering

Scale your Tier 3/4 capabilities and expand project margins with nearshore certified talent from El Salvador.

 CST Timezone

 CIE & JNCIE Level

The Challenge

Scaling Advanced IT Compresses Margins

Talent Cost

US-based L3/L4 architects demand premium salaries.

Project Bottlenecks

Complex enterprise implementations stalled in backlog.

Offshore Friction

Traditional offshore models cause massive communication lag.

Our Solution

Your Dedicated Nearshore Bench

Fractional Experts

Access elite CCIE/JNCIE engineering on demand.

100% White-Label

Seamless delivery exclusively under your MSP brand.

Perfect Alignment

Operating in CST for real-time US collaboration.

Infrastructure Capabilities

Clearing Your Technical Backlog

Enterprise Networking

SD-WAN, Enterprise Routing,
and Wireless.

Data Center & Virtualization

VMware and Dell/HPE
Hyperconvergence.

Kubernetes & DevOps

HA cluster design and CI/CD
pipelines.

Advanced Security

Zero Trust architecture and
perimeter hardening.

Technical backing

Elite Credentials, Nearshore Pricing

Provide your clients with top-tier technical authority without the heavy payroll burden of holding US-based talent on the bench.

Partnership Models

Flexible MSP Engagement

Block Hours

Retainer models for unexpected L3/L4 network escalations.

Project Delivery

Turnkey implementation for complex architecture deployments.

Staff Augmentation

Dedicated full-time equivalent (FTE) advanced engineers.

Proven Execution

Recent Project Successes

Campus Modernization

High-density HPE LAN/Wi-Fi deployment.

ISP Segment Routing

MPLS architecture design for optimized traffic engineering.

Perimeter Hardening

Juniper SRX gateway implementation for enterprise edge.

Proven Results

Transforming MSP Margins

The Standard MSP Baseline

- ✗ Stalled architecture deployments.
- ✗ High payroll burden for benched talent.
- ✗ Margin compression on complex projects.

The Nexoguard Advantage

- ✓ Accelerated deployment timelines.
- ✓ Zero domestic recruiting friction.
- ✓ 40% average increase in project margins.

Expand Your MSP Capabilities Today

Secure your white-label nearshore engineering bench.
